DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 12/30/2005 & 2/3/2006 has been entered.

Response to Arguments

2. Applicant's arguments, filed 12/30/2005 & 2/3/2006, with respect to claims 1-9 have been fully considered and are persuasive. The rejection of claims 1-9 is withdrawn.

Allowable Subject Matter

3. Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1 & 7, the prior art of record fails to teach or fairly suggest the combination of all limitations required in each of claims 1 & 7 that includes "...a notification unit for giving notification to the user prior to the payment of the monetary value that one of the one or more input/output units can be added to the

system and upon payment of the predetermined monetary value giving notification that input/output of the image by the desired input/output unit upon connection to said input/output interface is possible when the use verification command has been applied from said command input unit and said determination unit has determined that the input/output unit has been connected, and for giving notification that an the desired input/output unit can be connected to said input/output interface when said determination unit has determined that the input/output unit has not been connected and notifying the user when the system is in a ready state to add the input/output unit.”

Regarding independent claim 3, the prior art of record also fails to teach or fairly suggest the combination of all limitations required in claim 3 that includes “...giving notification to the user prior to the payment of the monetary value that one of the one or more input/output units can be added to the system and upon payment of the predetermined monetary value giving notification that input/output of the image by the desired input/output unit upon connection to said input/output interface is possible when the use verification command has detected and it has been determined that the input/output unit has been connected, and giving notification that the desired input/output unit can be connected to said input/output interface when it has been determined that the input/output unit has not been connected and notifying the user when the system is in a ready state to add the input/output unit.”

Regarding claims 2, 4-6 & 8, these claims are allowed as being dependent of claim 1.

Regarding claim 9, this claim is allowed as being dependent of claim 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
